Description		The subject "Public Procurement" studies the way of organization and the basic rules of operation of Public Procurement, according to the meaning of this law no. 162/2020 "On Public Procurement" which defines the rules for procurement procedures by authorities and contracting entities for public contracts and design competitions. Procurement, according to the meaning of this law, is the purchase of works, supply of goods or services through a public contract by one or more contracting authorities or entities from economic operators selected by these contracting authorities or entities, regardless of whether the works, supplies of goods or services are used or not for public purposes. This course studies the basic elements of this law, providing detailed concepts on the way of action, the organization of institutions such as the Public Procurement Agency, the Public Procurement Commission, etc. Also, a special place in the study of this subject is the research of some of the main directives of the EU with the aim of aligning the Albanian legislation with the acquis of the EU, by transposing or adapting the specific directives, which cover procurement procedures in the classic sector, sectoral and administrative review directives.					
Objectives		"Public Procurement" undertakes to provide complete knowledge on procurements, Concessions/Public Private Partnerships, auctions as well as the procedures for granting Mining Permits. In particular, the course provides detailed information on some of the most important institutions in the field of public procurement, with the aim of acquainting students with the basic principles of formation, activity and various administrative problems that they present in practice. Another important goal of this course is to acquaint students with the basic principles of this law and the solution provided by administrative and judicial practice to administrative disputes that arise in the context of its implementation. The course aims to enable students to do high-level scientific work (essays, course assignments, projects). To encourage critical observation and the act of legal correction in cases of deviations from legal standards, etc.					
Core Concepts		1. Public contract 2. Public auction 3. Public procurement 4. Administrative investigation 5. Concessions 6. PPP (Public Private Partnership)
